This photo was taken as school was being dismissed Friday.

Maryville Rd. Project Nearing Final Stages

Paving of Maryville road from Pontoon road in Granite City to old U.S. Bypass 66-40 west of Mitchell should be completed within a week or 10 days except for curb and miscellaneous work, it was reported this week by the county highway office.

The two west lanes have been poured from Pontoon road to Morrison road and the east lanes may be completed this week. North of the railroad crossing, all lanes have been poured and a portion of the curb work has been completed. The rail crossing improvement with warning devices is to be carried out at a later date.

The construction caused traffic problems last week at Maryville school, but county highway officials hope the situation can be corrected within a short time. Parents are concerned over the necessity of youngsters to walk in the street which is being traveled by heavy construction vehicles.

4696 Registration Goal Of Fall Boy Scout Drive

The Cabela's Mound Council, Boy Scouts of America, is well into a 26-week "Follow the Bugle Road to Adventure" fall recruiting campaign which has as its goal a registration of 4696 scouts by the end of the 1966 calendar year.

A. P. Steinhauer, council president, is stressing the importance of the "roundup" in making scouting available to boys who desire to participate and who can benefit from its varied program.

"Most boys join scouting because their buddies invite them," Steinhauer comments. "Recruiting in scouting is the same as in any adult organization. But in their quest for fun and adventure, boys often forget to invite others to join; they must be reminded in colorful terms, and the 26-week drive is the way this is done."

"The campaign also brings better understanding of scouting's values and its educational opportunity for boys to grow into the adulthood. Each cub scout pack, boy scout troop and explorer post has been provided with tools to create boy interest, help with adult recruiting, and provide boy and adult recognition."

"Kickoff meetings will be held in each district in September, with adult leaders, committee members and top boy leaders in attendance. Our goal can be reached with 100% unit participation."

Candlelight Setting Saturday For Flach-Walker Wedding

The wedding of Miss Linda Susan Walker, a daughter of Mrs. Lindy F. Walker, 3004 Buxton avenue, and Terry Edward Flach, whose parents are Mr. and Mrs. Adolph Flach, 3144 Davis avenue, took place Saturday evening at St. John United Church of Christ.

Rev. Paul Surbey officiated at 7 o'clock in the glow of candlelight. Candelabra and white satin bows lined the main aisle of the church and white summer flowers and greenery adorned the altar.

A program of wedding music was furnished by Mrs. Isabel Schmidt, organist, and Raymond Voorhees, soloist.

The bride was given in marriage by her uncle, Russell R. Walker.

She wore a gown of pure white imported bombazine silk fashioned with a bodice of Chantilly lace, a sabbina neckline etched with sequins and pearls and long tapered sleeves.

The very bouffant skirt, worn over layers of crinoline, featured a front pickup banded in lace and with lace tiers. A Watteau back panel falling from the shoulders into a full sweep train was also banded in the lace.

A double crown of pearls held the bride's tiered veil of illusion and she carried a cascade bouquet of white roses centered with an orchid.

Mrs. Charlotte Nesbit, matron of honor, and bridesmaids, Mrs. Melba Russell, a cousin of the bride, Miss Carol Walker, a sister, and Miss Peggy Flach, the bridegroom's sister, were dressed alike in aquamarine chiffon with

shirred Emoire bodices, scoop necklines and short sleeves.

The waistlines were banded with Venise lace with interlaced color, and the long slender A-line skirts had sheer fullness in the back to the hemlines. Matching headpieces were attached to tiny veils and all of the attendants carried yellow roses, carnations and ivy.

Robin Thorpe, a cousin of the bridegroom, and Paul Cinar, the bride's cousin, served as flower girl and ring bearer. The former wore a long white lace and silk dress with a headpiece of lace and a tiny veil. She carried a basket of rose petals. The ring bearer carried the rings on a white satin pillow.

Ronald Jones was best man, and George Russell, Nick Potolba, Michael Flach, the bridegroom's brother, James Smith, William Thomas and Chris Baldo made up the corps of groomsmen and ushers.

The bride's mother was in an aquamarine lace sheath dress with matching jacket and accessories, while Mrs. Flach, the bridegroom's mother, chose a pink lace jacket dress and pink accessories. Both mothers wore orchid corsages.

The wedding reception was held in the church Fellowship Hall with Miss Jerry Lee Moore and Miss Bobbie Jo Braden attending the guest book.

After a wedding trip, the destination of which was not disclosed, the newly-wedded pair will reside at 611 South State street in Champaign where the bridegroom will be a junior at the University of Illinois, majoring in electrical engineering.

MRS. TERRY E. FLACH, a bride of Saturday, before her wedding at St. John United Church of Christ she was Linda Susan Walker, a daughter of Mrs. Lindy F. Walker, 3004 Buxton avenue.

During the past summer he served as a carpenter apprentice. He is a 1964 graduate of the Granite City high school. His bride was graduated from Granite high in 1965 and has been employed in St. Louis.

The meeting opened with a poem and prayer by Mrs. Ruth Johnston, and Mrs. Beasley led a discussion of plans for the annual bazaar Nov. 18 when the circle will have charge of the "White elephant" booth. Announcement was made of the thank offering service Sept. 11 and a list of articles needed at the East St. Louis Neighborhood House was read. The remainder of the time was spent discussing new lesson methods.

Refreshments were served to nine, including one guest.

Firms Surveyed On Utilization Of Jr. College

A survey is being made by the Tri-Cities Chamber of Commerce among its members to determine what skills they would be able to utilize if a junior college is established in Madison county.

Needs of this and other communities for persons with technical or vocational abilities are expected to be a major factor in determining whether a junior college is created and, if it is established, what courses it would offer.

The proposed junior college, subject of a special election early in 1967, would serve two major categories of students — those wishing to transfer after two years to a university, and those seeking two-year terminal training to equip them for employment.

Type of Training
Middle-level manpower skills that could be the subject of courses at a community college are listed in the survey as including:

Mechanical technologies — air-conditioning, refrigeration, aviation-mechanics, automotive, diesel, foundry, hydraulics technology, machine drafting, operating engineering and tool die technology.

Electrical technologies — communications and computer electronics, electrical power technology, electronic assembly and drafting, and industrial and missile electronics.

Basic research technicians — biological, biophysical, chemical, geophysical and hydrographic technicians, mathematics aides, and metallurgical, meteorological, physics research and spectroscopy technicians.

Health, Business, Civil Fields
Health field technicians — dental assistants, dental laboratory technicians, histological and medical laboratory technicians, medical office assistants, psychiatric and radiology technicians, registered nurses, x-ray technicians and medical records technicians.

Civil technologies — architectural drafting, building construction technology, concrete technology, map drafting, materials testing, sanitation technology, surveying and structural technology.

Industrial technologies — ceramics and chemical technology, forest products and metallurgical technology, optical technology and paint manufacturing and petroleum technology.

Business-related occupations — bookkeepers — accountants, business data programmers, retail store buyers, data processing and graphic arts technicians, legal and medical secretaries, private secretaries, real estate salesmen, store managers and sales and advertising personnel.

Pvt. Thomas Craycraft Is Home on Leave

Pvt. Craycraft will report to Fort Lee Va., after his leave for training in shoe repair which was guaranteed him prior to his enlistment at the Army recruiting station, located at 1340 Niedringhaus avenue. Before entering the Army he was employed at the Bellemeor Shoe Clinic.

Four Radar Arrests

Four drivers were issued arrest tickets on speeding charges Thursday afternoon as traffic division police operated a radar unit along Madison avenue. They are James E. Tall Monument at Alton for Confederate Soldiers Who Died of Smallpox in Prison

Tourists who travel the Great River Road in the vicinity of Alton, should make all effort to follow State street from the riverfront northward to where it is crossed by Rozier, to visit the Confederate Cemetery there. Here a tall monument tells the story of one of the blackest pages in U. S. history. On the obelisk is an almost unbelievable statement.

Erected in 1910, the shaft is in memory of no less than 1334 soldiers who died in the area of smallpox!

In today's age of biotics and vaccinations, this many deaths to a dread plague like smallpox seems almost unbelievable.

Yet when these soldiers died, between 1862 and 1865, smallpox was a killer disease that ravaged unchecked because there was no way to combat it.

Prisoners
The men who fell victim to this disease at Alton were confined to a prison, and in stockades on a nearby Mississippi river island. They were prisoners of war at the time.

The site of the first state prison in Illinois, is at Broadway and William streets in Alton. It became the center of a violent controversy that eventually ended in a legislative investigation and the construction of a new prison at Joliet.

Badly situated in a spot too near the Mississippi, undrained and ungraded, it aroused the insistent criticism of Dorville D. pioneer in prison reform, who soon joined others to her cause. With the outbreak of the Civil War, the plan to discontinue the prison was abandoned, and it became a military detention camp.

Overcrowding and the lack of sanitation culminated in a smallpox epidemic in 1863, which wasted uncounted weeks for the ward of prison doctors. Prisoners died at the rate of six to ten a day.

No Records

Finally, citizens demanded that all stricken prisoners be transported to an uninhabited island in the Mississippi, where a deserted dwelling was converted into a hospital. There is no record that any of these prisoners ever returned from the island, recovered.

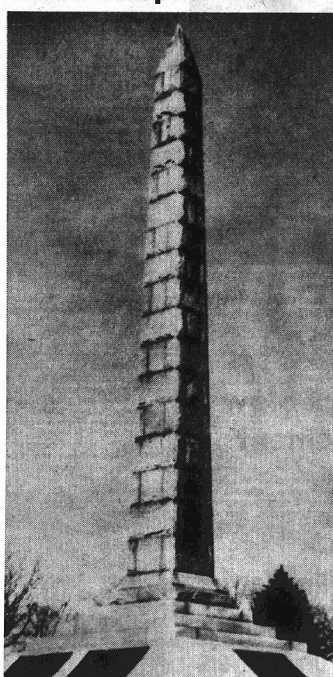

Although no death records are available, it is presumed that several thousand persons died and were buried on this island during those tragic days. Others of the Confederate soldiers who died during the epidemic are buried in today's Confederate reservation, the cemetery at State and Rozier, where the shaft lists the names of 1334 men.

Standing at this monument, even today, one shudders at the immensity of death. Here is historic proof of a plague ravishing the young men of a nation, soldiers at war. It takes little imagination to envision the heartache and despair of these deaths to their loved ones far distant.

Time mellowed all things, but site of the old prison, the island in the river, brings it all back into sharp focus. Here was the stark terror of war — and disease. Today's hurried worker passes the monument unthinking. But once he stops, reads the names, the tragedy is given a rebirth.

This Confederate Monument, high on one of Alton's many hills, is definitely a "must see" for all who journey through Illinois Expedition Land. A visit here has a solemnity about it that is still rewarding. We tell ourselves, it couldn't happen again.

For additional information concerning Illinois Expedition Land,

ERECTED IN 1910 by the U. S. government, this monument pays tribute to the Confederate prisoners of war who died in the Alton prison. Just one of the few highlights in Illinois Expedition Land.

Madison Backs Will Be Speedy

Trojans Bid for Top Roles in Grid Drills

Competition for football starting assignments at Trojanland stepped up over the weekend as Madison pointed toward its Sept. 16 opener at Edwardsville.

Current surprise during the increasingly tough workouts is the showing of Titus Ship, 165-pound junior, who has been moved from center into the backfield picture.

Ship joins a combination that includes two fast scabbacks, Sam Jones and Ron Burr, both 165-pounders. These two figure to be coach Glen Pickering's running backs.

Quarterback competition remains fairly even between two Steves, Steve Shipcoff and Steve Geroff. Both are returning lettermen, and Pickering has been fairly pleased with their work.

Fast Backfield
"We won't have that big backfield man this year," Pickering noted in speaking of Alton Rendell, who graduated along with 200-pound Paul Lusk, "but we are going to be fast," he predicted.

Another pleasant surprise for the Madison men has been the work of Dennis Holt, who did not

play football last year. Holt, a junior at 185, is being seen a lot in the offensive tackle slot.

The other tackle spot on the Trojans' offensive line is being nailed down by Marv Ocola, another of Pickering's monogram-winning returnees.

Guard Spot Wide Open
The end spots are areas of competition, too. Currently doing well at left end is another junior, Keith Williams. Keith scales in at around 165 but he's over six foot, nearly 6' 4".

At right end, returning letterman Joe Collins, another plus-plus player at 176 pounds, has pretty well taken charge.

Joe Podnar, a letterman returnee who weighs 170, is working into the right guard post in rapid order but competition is strong at the other guard post.

At center is Greg Wasylak, another 165-pounder on the Trojan roster, is working out well, making the center of Ship to backfield duty an easier matter.

Two Bulky Defensesmen
It appears as though Madison's defensive alignment will be anchored by two plus-200-pounders this year in the persons of junior Burt Armour and George Campbell. Both send the scales to the 210 mark.

"I haven't had much of a

chance to look at the sophomores yet," Pickering said, in speaking of still added depth on the squad. "But I do expect Jim Nowicki to report," he added, noting that the senior end had not yet started school.

Practice sessions during the weekend found the team going into more full-scale scrimmages. Pickering and his staff had the team out early Friday afternoon and there was a longer practice Saturday morning that ran from 9 o'clock until noon.

Press-Record Local Race Sports Announcer A Busy Man

A candidate for one of the busiest holiday drivers this past weekend would be Roy Brummel, announced at Tri-City Speedway. He ran his own "500," and actually a little beyond that.

On Friday night, the 60-mile round trip to announce at St. Charles Speedway. Saturday, 71 miles to the DuQuoin Fair for similar duties. Back here for Sunday night's Tri-City program and back to DuQuoin the next day.

From DuQuoin, on Sunday, he barreled his Chevy II into Springfield—171 miles, to announce a night racing program there. Then, back home that night. And Monday? Back to DuQuoin again and then back home. A busy man, Roy Brummel.

Football Rules Meeting
Ernest Driggers of Mt. Vernon will be football rules interpreter in a meeting at Belleville West high school Thursday at 8 p.m. The Illinois High School Association is conducting such meetings throughout the state, at 20 different centers.

Remember When a Halfback Was a Halfback?

Gridiron Lingo Colorful; New Terms Born Each Year

Monsterback, Boxing End. Do these sound like football positions to you? Or does your familiarity in matters gridiron stem from the time not too long ago when a halfback was a halfback was a halfback?

Nowadays a halfback can be an "I Back," or a "T Back," or a "Tailback," depending upon which type of offense you're talking about.

Of course, football teams used to have two halfbacks. Not now. The other "half" is either apt to be a "Wingback" or "Slotback," or possibly a "Flanker back."

But as language encumbered as offensive positions have become of late, defensive terms have also evolved their way into modern football lexicon.

Monsterback
"Monsterback"? Actually a free-roving third linebacker, known in pre-language as a "Cornerback." "Boxing End," another bid of hybrid-type nomenclature, is simply county, Washington county area southeast of Nashville; Randolph county area northeast of Chester; L. P. Dolan Area in Hamilton county southeast of McLeansboro, and the Saline county area southeast of Harrisburg.

Reasons on these areas are as follows: Squirrel—Sept. 15 through Oct. 15; Dove—Sept. 15 through Nov. 8; Quail—Nov. 11 through Dec. 31; Rabbit—Nov. 19 through Jan. 31, 1967.

Each pheasant may be taken on these areas in season from Nov. 11 through Dec. 11, although they are not located in the prime range and therefore are not productive for pheasants.

Deer may be hunted with dogs during the season on the Sam Dale, Washington county, Randolph county, L. P. Dolan and Saline county areas, Lake Argyle, Lake Ramsey, Stephen Forbes and Red Hills are closed to all deer hunting.

Hunting hours are: Squirrels—sunrise to 1 p.m.; Doves—2 p.m. to 5 p.m.; Quail, rabbits and deer—8 a.m. to 4 p.m., except that on the first day of the quail and pheasant season hunting will not be permitted until 10 a.m.

With the exception of squirrel hunters, all marksmen must check in prior to going into the field. A patch to be worn on the hunter's back will be issued. Only shotguns are allowed and again with the exception of squirrel hunters, all hunters must check out before leaving. State bag and possession limits apply.

Sportsmen are not required to check in at the following areas: Douglas county area near Oakland; Jasper county area near Newton; Pope-Massac area near Bay City; Marshall county area south of Lacon; Woodford county area north of Spring Bay; Henderson county State Forest south of Keithsburg; Mason State Forest west of Manito; Union county State Forest north of Jonesboro, and the Horseshoe Lake area north of Cairo.

All state and federal hunting regulations will be enforced on these areas unless area regulations are more restrictive. In that case, area regulations will apply.

Except for the Horseshoe Lake area, sportsmen may hunt squirrels, doves, quail, pheasants and rabbits during the regular season. Deer may be hunted with bows in season.

At Horseshoe Lake (Cairo) squirrels only may be hunted until Sept. 15. The part of the area patch for squirrel hunting is located south of the Promised Land Road.

Squirrels, doves, quails, pheasants, rabbits and deer may be hunted on the Green River and Irroquois county areas, Union county and the Plaines Area, when they are not operating as permit pheasant hunting areas. Archers may hunt deer on these areas.

Small Game
All conservation areas in county open for deer hunting will be closed to small game hunting on Nov. 18, 19 and 20 and Dec. 8, 9 and 10. The Green River area will be open for pheasant hunting by permit on Nov. 18, 19 and 20 but will be closed to all small game hunting during the last half of the deer season.

Champions Coming to Cue Mecca

Tri-City Cue Center is becoming a mecca for cue notables. Wes Ziegler has just signed the legendary Willie Masconi for an Oct. 5 8-11 p.m. appearance and now he has inked Eddie Beauchene for Oct. 10-11.

Beauchene, known nationally as "Detroit Whitey," is current all-round runnerup in the chalk and cue world. He is also world champion in snooker.

All-round champion in pocket billiards consist of being tops in "Nine Ball," "One Pocket" and "14.1 straight pool." Top man now is Whimpy Lassiter.

Some Definitions
Asked to define these various schools of pool, Ziegler complied. "Nine Ball," he said, "looks very simple but there's an art to it. You have to pocket balls one through nine in rotation order."

Ziegler noted further that an artiste can often carom his cue ball off the No. 1 ivory and make the nine ball—that's game. One Pocket? "Here each player pockets one of the four end pockets," Ziegler said. "The object is to pocket eight balls in just this one pocket."

As for "14.1 straight pool," this is another consecutive shot event, the object being to pocket 14 balls, leave one on the table, rack and start again. Ziegler's recent tournament was a 14.1 affair.

All this will become apparent to any cue novices during Masconi's and Beauchene's appearances. Masconi, now in his 60s, has won 11 different occasions. The LA native is enroute to the world championships at Johnson City.

Beauchene, also making the Johnson City scene, will be here in the afternoon from 3 to 5 o'clock on Oct. 10-11. His artillery will no doubt include the Detroit's specialty, as Tri-City's savor includes a snooker table.

A whirlwind of activity surrounded the Salvation Army residence at 250 Delmar avenue last week, when Lt. and Mrs. Donald Wisor arrived here to assume their new duties on the same day that Lt. and Mrs. Ronald Gorton and family departed for Hannibal, Mo.

Effective, Expanded Program at Quad-City Mental Health Center

To the Editor:

I would like to respond to a letter published in your paper, Sept. 1, regarding mental health services in the Quad-City area. It was rather misleading even though most of the facts were accurate.

To begin with the monies relative pay for the care of State Hospital patients is used for community clinics such as you have in Granite City but the percentage of these funds is around 34% of the very small part of the money collected by the state offices. Yet the clinics treat over 40% of the people seen on an outpatient basis.

The state money cannot be spent more effectively, since the Granite City and Clinton through local contributions and United Funds, pay 51% of the total clinic budget, the highest percentage in the state, I might add.

The services offered at your Madison County Mental Health Society Quad-Cities Center have in fact been improved over the past year.

UNIAPPY WITH COMMENT ON GOVERNMENTAL COSTS

To the Editor:

Again one of your very enlightening editorials on our editorial page of the Aug. 25 edition compels me to comment.

What are you trying to accomplish with editorials like "Cutting Our Governmental Costs Through Socialization"? Sabotage our Medicare law?

How can you state that medical costs for patients 65 years old and older have doubled and tripled and, of course, paid from wage earners' Social Security funds? Are you trying to incite riots by the wage earners, or are you trying to induce the Medical Society—by the way, the most powerful union in the country—to double and triple its fees to make life more miserable for the retired wage earner? How low can an editor stoop?

A metropolitan newspaper before me of Aug. 24, in a report from Washington by the Bureau of Labor Statistics, stated that the medical cost in the last six months rose actually 2.8% instead of the 3.4% stated by President Johnson. I am not sure I believe this official figure rather than your hate-inspired 200%-300% increase, which is the percentage for double and triple if I am not mistaken.

This Medicare apparently is a nail or nails in your basket, so to speak. Aren't you ashamed? The editorial in question, not a lead editorial, may not have come from your typewriter, but as editor you bear the responsibility for it. It should have brought a picket line the next morning of retired union members where you are hatching all your editorials so detrimental to the well-being of the elderly.

What's the matter with you, anyway. Why pick on legislation beneficial to those who worked hard all their life and have to live now on a fixed income in the period of inflation? I and others like me are not as fortunate as those who may wish to pay high medical bills.

Medicare and does not solve all medical and financial problems of the elderly; it certainly is a great help to us old people and will be to those who help pay for it now in their retirement age if the world still stands.

I am not going to argue with you because I am not a journalist who can say with any Greek or Latin word sometimes more than I could say with ten words in plain everyday English. I certainly couldn't dress you down to size with 220 words for your editorial page I certainly would try to give you a good spanking by digging down in plain English, or German for that matter. Your readers would like it, rest assured.

Why don't you let old people have their Medicare? Quit shooting these snipe-bullet letters of legislation that benefits people who deserve such legislation.

Why don't you perform a journalistic job that benefits the poor, like for instance investigate the price of water in the Mitchell water district? Write about it. That's your job.

Medicare for the elderly is here to stay. It may be improved in the coming years, and your paper as well as the AMA are not big enough to stop it.

Any? Darn right I am. Who shouldn't be with such consistent flying editorial snipe-bullet letters?

Current status of various improvement projects in Eagle Park Acres, including additional street lights, fire plugs and the proposed installation of a sewer system will be discussed during a community meeting at 8 p.m. Saturday, at the Harrison Center, Roosevelt and Harrison streets.

In announcing the meeting today, Cleveland L. Johnson, president of Eagle Park Improvement Association, said all residents are being urged to attend and hear progress reports on the community betterment program. Also to be discussed is proposed landscaping and equipping the new park area, dedicated last week. Johnson said that he still plans to meet in Chicago next Friday, with Irving Horowitz, regional director of the Housing and Urban Development

Agency, to discuss possible federal aid to finance the park improvements.

Residents of a several block area, whose homes are scheduled to be included in a storm sewer drainage project will hear further details at the meeting, the association official said.

City's Functions Explained to New Improvement Unit

Jurisdictional authority of various municipal departments in Granite City were outlined by Sixth Ward Alderman, Gerald Parnley and William Warfield, superintendent of streets, who met Thursday with members of the Kirkpatrick Homes Improvement Association.

Approximately 50 residents of the local housing development attended the meeting and discussed future projects and activities of the newly-formed citizen's group.

Several questions were directed to the city officials on possible methods of eliminating hazardous traffic conditions on Nameoki road; problems encountered within the project's own parking areas and in connection with the old cemetery area, adjacent to the housing development.

Alderman Parnley told the group, "Several of the problems we have discussed today have been present in the area for some time."

"I am happy that you people have decided to join together and take the ball by the horns to correct some of these conditions yourselves."

Supt. Warfield said he would aid the residents, "with all that I have at my disposal. Anything the Granite City street department can do to assist you will be done," he added.

David Walker, Tri-Cities Economic Opportunity program director, also a guest at the meeting, pointed out to the audience that both city and housing project officials, together with members of the association must work together in order to bring about the improvement sought by residents.

Other guests included Mrs. Sophia Parker, Illinois Youth Commission and a member of the Madison County Economic Opportunity Commission; Mrs. Marie Pirie and Mrs. Kitty Morris, EOC community aides; and Leroy Mangiaracino, precinct committeeman. Mrs. Sandra Ray, who was elected chairman at the group's recent organizational meeting, told the Press-Record that the residents of the housing project have taken the initiative by forming the association. "We plan to work out our problems on our own front doorstep," she added.

All persons living at Kirkpatrick are invited to attend future meetings, which will be held each first and third Thursday of the month in the recreation hall.

United Fund Agency Copes with Problems of Youngsters

An agency of the Tri-Cities Area United Fund that functions behind the scenes in a quiet, efficient manner is the Coordinated Youth Services—designed to aid emotionally disturbed children in conflict with the law or social standards.

The agency, which this year relocated its offices at 1930 Edison avenue from city hall, is staffed by professionals who provide guidance to youngsters to prevent serious delinquency.

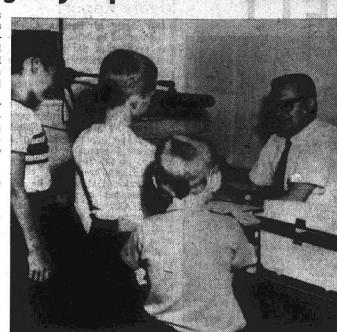

This year the agency's United Fund budget is \$20,000, up \$800 over last year's figure.

Difficulties are referred to the agency by police departments and schools of the area; although of 550 cases handled last year, 25 were by children who recognized their own problems and voluntarily went to the agency for help.

Among other major referrals were 41 by interested citizens, 45 by neighbors and 79 by parents.

Of the 550 cases last year, 278 were new, 106 were recurrent cases with additional problems occurring while the youth was still being counseled, and 166 were recurrent after a previous case had been closed.

Close Cooperation
In handling the cases, the agency, with C. A. MacMillan Jr., as executive secretary, cooperates closely with police departments, local and county courts as well as other social services and

retary of the YMCA. Family backgrounds are studied in providing social treatment for the providing minors. When

essential, children are removed from homes and placed in foster homes or suitable "institutions."

In the category of new cases, the agency last year handled 39 behavior problems, along with 22 theft cases as well as 12 involving shoplifting and five in which burglary was involved. Two youngsters were involved in attempted break-ins.

Runaways, Truancy.
There were 18 runaway cases and nine involving vandalism; truancy and school attendance problems included nine cases each, while there was one involving rape, eight for sex behavior, seven for sex problem investigation and two cases of unwed mothers.

Intoxication, drinking or illegal possession of alcohol accounted for three cases, and there were six for fighting and seven for curfew violations.

Incidental services were given 53 youngsters, while the agency also handled 47 investigations and provided services to 17 families. Recurrent cases last year included two involving arson and one for forgery.

The agency now is engaged in establishing programs for job training and job placement in the cases that are active and recurrent.

Probation supervision also is becoming a part of the United Fund agency's program.

Studying with the wrong light can cause fatigue—makes your work seem twice as hard as it really is. That's why a good study lamp is so important.

The Study Right Lamp tag on the lamps at your Illinois Power Showroom is your assurance that the lamp you buy is specifically designed for studying. It means the lamp:

- will give you enough light for studying.
- has a diffuser bowl to soften light and prevent glare.
- has a semi-opaque shade to direct the light to the working surface.

Put the proper light on your studies. Stop in at your Illinois Power showroom and see the large selection of study lamps.

Problems of Police Outlined To Club by GC Sgt. Veizer

"Your American policeman is under fire by the citizens today; yet we are the only line that stands between you and the criminal element," Sgt. Ronald Veizer of the Granite City police department told an audience of 23 members of the Tri-Cities Chapter, National Secretaries, at a meeting of the Chapter Thursday evening at the Rose Bowl.

"The Supreme Court of the United States is making it more difficult daily for the police department to perform its job to protect you as a citizen," he continued.

Family Men, Public-Minded
"The average police officer is a family man; he is public-minded, and he is honest. We are on duty 24 hours a day."

"Any time a police officer is on the street, he is on duty, whether he is with his family or not. The policeman lays his life on the line every time he puts on his badge and goes out to the streets. In 1965, about 18,000 police officers were assaulted in the United States. This averages out to one out of ten."

Statistics on "Brutality"
"Yet all you hear about in the newspapers and on television is 'police brutality.' During 1964 and 1965 there were 1700 complaints registered with the FBI, who must investigate each complaint, of police brutality. Only 47 were found to have enough basis to be presented to the Federal Grand Jury. Only five of the complaints were proven in fact before the Grand Jury."

"In the Belleville office there are two officers who do nothing else but investigate complaints against police officers. What we want to do is to upgrade the image of the police officer. The public attitude to the police must be changed."

"The television programs must stop depicting the police as the idiots. Parents have got to stop using police as a threat to young children."

President of State Group
Sgt. Veizer, who is president of the Illinois Division of the International Association of Identification, said that population-wise, Granite City is one of the lowest crime areas in the United States. For the past 10 years Granite City has received a certificate of recognition from J. Edgar Hoover because of the low crime rate.

"A fact you may not be aware of is that 90% of all police time is spent on other than criminal detection," Sgt. Veizer said. "This includes rescuing pets, settling neighborhood quarrels, directing traffic, sobering up drunks, intervening in marital difficulties and even assisting in delivering babies."

The Granite City police department is trying to bring to the attention of the community the police's day through the showing of the film "Every Hour, Every Day" to various local civic groups, and this film followed Sgt. Veizer's talk.

Burglar Problem
In the question and answer period that followed, he was asked "What should you do if you wake up and hear a burglar in the house?" His answer was "Go back to sleep!" But he emphasized, "at least pretend to be asleep and make no noise until you hear him go to a distant part of the house. Then if you are able to get to a phone in the room, call the police. Otherwise turn on the lights and start screaming, and nine times out of ten this will scare the intruder away."

Twila Edmonds, chairman of Boss Night, announced it will be held this year on Oct. 20, at the Elks Club. Ballots were distributed for aid in selection of the Boss of the Year.

Almost 20 members of the

Chapter volunteered to help in the Quad-City Area Religious survey by donating their typing services during the week of Sept. 19.

Plans were made for Chapter members to tour St. Elizabeth Hospital Sept. 21 or 28. Sharon Diamond, a hospital employee, is in charge of arrangements.

Leadership Clinic
Several local chapter members will attend the third annual leadership clinic to be held at the Orlando Hotel in Desatur on Sept. 17. The following Saturday they will be attending the Workshop sponsored by the Altus Chapter which usually attracts about 150 secretaries and secretarial students.

Three guests at the meeting were Mrs. Virginia Frederick of the county court house, Miss Jeanette Tritan of General Steel Industries and Mrs. W. I. Childress, who is employed in the Air Force Management Office, Mobility Equipment Command, St. Louis.

Gerry Hoover, hostess for the Oct. 6 meeting, announced it would be held at Staggs in Wood River and Randall Robertson, local lawyer, will be the speaker.

President Helen Giessele announced the next board meeting will be Sept. 13 at the home of Jane Davis.

FOUR HIGH-RANKING IRANIAN ARMY OFFICERS, accompanied by an escort-interpreter, who recently toured the Granite City Army Depot, are shown with Lt. Col. George B. Thomson, GCAD acting commander, second from right. Front row—left to right, Col. Ali Farzaneh-Ghaemi, instructor, High Command and Joint Staff College; Maj. Gen.
